Apparently Shrub doesn't believe in, "The buck stops here" does he?

Just saw a bit on news where he made remarks regarding "If we leave before the job is done." HUH? I just heard they gave up the "stay the course." OK, how is "If we leave before the job is done" fundamentally different from "stay the course." The man is a freaking idiot.

I can't even get through all the stuff you posted, Jay. The fact is, we went to Iraq because Bush wanted us to go, no one else would have made this happen, and he is responsible for the mess we're in now.
