I've always thought it was strange that you could just walk in, claim to be me, sign my name and vote.

When I voted I always had to show my voter registration card and my ID. I want everyone to show their ID because it prevents ILLEGAL aliens from voting and that's what I want to see prevented. I too see no problem with showing ID to vote. Why would you not have ID in this day and age? If you get stopped and don't have it, can't they arrest you until they find out who you are?
