This a.m. a 16-year-old boy brought a military rifle into school and killed himself. Police say he was upset because his parents threatened to take away privileges due to a poor report card! Fortunately he didn't harm anyone but himself. This boy came from a really good, caring family. I didn't know him and don't know his parents, but I do know his father's brother's family and they're wonderful people who care about each other. One has to wonder what goes on in these troubled minds. Our little township is in mourning tonight.
