Hello,

Mr. Morrill I hope wherever you are will be fine....

Actually what I posted here is One of the growing..Right!...so one of the growing means its growing...means it has just been established and is in the process of developmentand for your kind information we have already taken data from Sierra Medical Associates, CA in association with Asawara Medical Transcriptions (<http://www.sadatanwar.com/asawara/index.html>) and working well with them....and in the next few months we are gonna take a huge contract from India "By The Grace Of The GOD"So its my advise to you that instead of making persons degrade you should encourage them...and I hope you have learned all the manners from your parents too.....and now its up to you that how you feel this post according to your thinking!!.....

One more thing is that we are not spam, OK !! and if you are thinking that we have our website on subdomain so this is Temporary i.e currently we are testing our website and continuously monitoring it through Statcounter.com and we have got an excellent response and soon we are going to launch our own website on the internet.

So, Mr. Morrill !!!....do not try to degrade other peoples....and whenever you try to do that again in the future, first you should think about yourself or assess yourself right!!.....

Dear Mr. Morrill, I am so sorry for anything in this post that hurt you!!.....

"GO BLESS YOU" and "MAY GOD GIVE YOU A LOT OF HAPPINESS AND JOY"!

Best Regards

KHAWAR KHALID

Re: Mughal Medical Transcriptions

....and he still doesn't get it, does he? I don't even know where to start. I wonder if Sierra Medical Associates would be happy with this clown advertising on usenet that they offshore their records?
