FLORIDA FLUORIDE IS FOR FAUCETS – NOT PEOPLE!

WHY?

BECAUSE ATOM BOMB TOXICOLOGIST HODGE MADE FALSE FLUORIDE SAFETY PROMISES

In 1993, Darlene Sherrell and Martha Bevis (with the help of Florida Senator Bob Graham) forced our own National Academy of Sciences to admit that EPA's permissible level of fluoride can cause CRIPPLING skeletal fluorosis...

Since CRIPPLING skeletal fluorosis is rare, I've started wondering what crippling skeletal fluorosis feels like BEFORE it becomes crippling...

PERHAPS it feels like the "variety of musculoskeletal and other health ailments" – mentioned in *The Fluoride Deception* by Christopher Bryson:

"[B]aby boomers who have ingested a lifetime of fluoridated water...may be suffering a variety of musculoskeletal and other health ailments that can be traced back to [atom bomb toxicologist Harold Hodge's] false promise that fluoride in water was safe." [Bryson C. *The Fluoride Deception*. NY: Seven Stories 2004:221]

I SAY AGAIN:

FLORIDA FLUORIDE IS FOR FAUCETS – NOT PEOPLE!

I say this because the 4th District Court of Appeal of the State of Florida says it!

In 2001, Jesus F. Quiles sued the City of Boynton Beach, Florida for performing a medical procedure – fluoridating his water...

Quiles lost the trial and appealed.

The 4th District Court of Appeal of the State of Florida wrote:

"The introduction of fluoride into the city's water is not a 'medical procedure'...[T]he city...is not seeking to introduce the

sci.med: Florida Fluoride Is For Faucets – Not People!

mineral directly into Quiles's bloodstream...the city's fluoridation...stops with Quiles's water faucet. The city is NOT compelling him to drink it...."

"...[The city IS though compelling Quiles to – TG^^] filter it, boil it, distill it, mix it with purifying spirits, or purchase bottled drinking water."

QUILES v. THE CITY OF BOYNTON BEACH
CASE NO. 4D01-71
Opinion filed November 21, 2001 (emphases added)
<http://www.4dca.org/Nov2001/11-21-01/4D01-71.pdf>

^^^The Court wrote "He is free to filter it" – but the city is obviously COMPELLING Quiles to PAY to filter his water (or boil it or distill it or...)

The Court also wrote:

"...His freedom to choose not to ingest fluoride remains intact."

Nope. The City of Boynton Beach gave its residents the "free"dom to choose to PAY EXTRA to choose not to ingest fluoride.

THE KICKER: The fluoride was neither intended for direct introduction into bloodstreams nor for direct introduction into mouths! It's not a medical procedure
