I tell every physician, psychiatrist I ever know or see just what I said here. Will not go into detail here, as you are entitled to your opinion. Except to me you are the nutcase here and now. The cause is not known by the medical profession for crohns illness and UC, but I AM TELLING YOU THE CAUSE. Believe it or not. But you will never know anything of value to help the suffering and some dying by this strange, almost unbelievable side effect of stimulants.
