We are a research team at Columbia University, Teachers College studying eating behavior and body image. If you are 18 or older, we invite you to participate in our survey. We especially need males, older adults, and senior citizens.

Eating habits and self image have a great deal to do with health and happiness. Our purpose in conducting this survey is to understand how eating behavior and body image change across the lifespan and influence wellbeing. We hope that you can contribute to this effort.

You can take our online survey by clicking the link below!
