The changing position of the uterus caused by: Bearing, without knowing that the uterus position can change involuntarily from the previous position and it makes someone feel sick. The unsuccessful operation:

The returning of the uterus perfunctorily and unarranged neatly can cause the constantly suffering. The operation of Caesar or tumour, which the sewing is less good, can cause the incredible and continuously suffering and it is undetected by the medical tools. The coarse scraping/curette:

The hard and perfunctorily scraping can cause the uterus bruised and changed. The next suffering is very torturing in several times and it is undetected by the medical tools.

The wrong position of the uterus can cause bruised. This bruise felt pain if touched, colic (difficult to do defecation), the liquid heaping, leucorrhoea, the urine disturbance etc.

These are some alternatives for this pain:

What needs to do to avoid suffering from this pain?

" Avoid massaging in the stomach or uterus part. If you have to do that, find someone who is seriously able or the expert of it.

" If you feel there is something wrong in the uterus after bearing, try to examine the uterus to the doctor. Avoid treating to someone who is not the expert.

" If you have to operate or scrape, you should find the expert who has a nice reputation. Do not be shy to talk to the doctor personally/ directly, So the doctor can do well and accurately . Say thankfulness after that.

What should do if you are too late being sick?

" Consult to PENNASIA NORMALIZATION, which has experiences in this case immediately.

" If you feel pain after being operated by the doctor, soon ask to the expert involved, why you are sick after being handled. Follow the next clue.

" Stop using the analgesic, if it is not effective and only becoming the dependency of the medicine.

Hopefully the sufferers of this illness will get well soon.  
And additional information: in a few days later, Pennasia

## tips of uterus pain

Normalization will launch Technique of Diabetes Therapy for free charge in my site. You can tell your friends or someone that suffers diabetes about this good information. Good luck and God bless you!!

Regards,
