That's typical McAnally BS,

Dump a pile a poop on someone and apologize for missing the toilet, "I'm imprecise", butt "honourable"...

More McAnally BS, I'm supposed to "justify" myself to a "killfile".

Sue snitched and is probably killfiled now too.

There McAnally claimed his BS smells good, so getting dumped on is good, because his lawyer says so. Getting a Ph.d from Corn Flake U, is a great cost saver.

Sue, McAnally often sends messages to me via a third person, we're all fascinated.
