[Hammond]

What posts? I never claimed "everything in the Bible is literally true".

My position is:

Some things in the Bible are literally true,
but most things pertaining to the description
of Divine Phenomena are in fact "described
metaphorically".

ALL OF IT IS "SCIENTIFIC FACT" however, whether it
is described "literally" or described "metaphorically".

I dare say there are no "lies" in the Bible.... or scientific
untruths either.

When Ahab's priest commanded the Sun to stop dead in the sky
and then move 15–degrees backwards.... OBVIOUSLY that
is not literally true... for chrissakes everything on the Earth
would slide sideways at 1,000 m.p.h including the Ocean
which would drown everybody.

YOU'RE SUPPOSED to be learned enough to know that
the "san paku" peoples of the Earth (pious, introverted,
upper class religious people... such as the Jews in
particular) are referred to by the code word "the Sun"
and what it meant is that Ahab sensed that the Israelites
were spoiling to go to war and were overconfident and
foolhardy.... and he wanted to thwart their emotional–
psychological propensities and (in code) told the
priest they needed to "stop the Sun in the sky and
make it move back 15–degrees). It was a goddamned JOKE
up at their level... but it was a "scary and mysterious
symbol" to the uneducated Israelites that made them
stop and ponder what the hell they were talking about...
just like you are sitting there glassy eyed with wonder
about what the meaning of the metaphor might be.

Now for you to sit there and claim that God=G_uv proves that the Sun can go backwards in the sky is sheer insanity.... the story of the Sun is CLEARLY not to be taken LITERALLY... in fact... to LEARNED people it is a VERY POWERFUL AND MASTERFUL METAPHOR about the social psychology of the time... a joy of private communication from some of the world's most influential men to other learned and experienced men (such as myself) and is DELIBERATELY DESIGNED to pass right over the heads of ignorant know it alls such as yourself and the other Goofballs on this thread.

You would be WELL ADVISED that much if not all of the important matters of human experience are discussed and negotiated in such "upper level" language so that the ignorant goofballs who think they can merely go by a gun and assassinate the government are kept from knowing what is going on. that kind of "coded language" is ALL AROUND US 24 hours a day... and what is being discussed is on a "need to know basis"... and if you can't understand it, or more commonly don't notice it..... you simply DON'T NEED TO KNOW!

A hundred years ago the upper classes spoke in French so the servants couldn't understand them. But the art is thousands of years older than that... and the principle example of it is the BIBLE... where the average loudmouth aggravated s.o.b. can't understand what they are talking about even though it's written in English.

However... the time has come to let the cat out of the bag and actually LITERALLY TELL the average aggravated s.o.b. WHAT GOD IS..... Science has finally discovered the necessity of that.... and that is what God=G_uv is... a LITERAL, non-metaphorical explanation (and proof) of what "God" actually is. It EXPLAINS (and proves) the Bible.
