Androcles: What is eating you today? Go get laid and you will feel better. For some reason you are keen to initiate the ritual of personal insults. That strikes me as dumb or you have some serious hormonal or chemical imbalances. An abundance of anti social impulses don't usually gush out of smart people. That kind of behaviour usually comes from the great unwashed.

P.s. I am aware of contractions. I wrote "Your are----" but I meant "You are----".

I plead bad typing. I hope that I did not offend you. You are usually kind, thoughtful, patient, and generous.
