bh

That is not what we know at all. As usual all you are simply demonstrating is your lack of understanding. Proper length, like proper time, is invariant.

d

Perhaps you would like to prove it to me Bill like all the other assertions you have made and been unable to prove.

bh

Rest of usual rubbish snipped. Actually I do not know if it is his usual rubbish because I can not even be bothered reading it.

d

Thank you for your boring, depressing and non factual reply Bill perhaps you wont be bothered to comment soon and we will all breath a sigh of relief.

Dr ***
