Thank you for taking the time to write us. If you have questions or feedback about Google Groups, please visit our Help Center, which will provide you with quicker answers to your questions. The Google Groups Help Center is located at <http://groups.google.com/support>. After searching and browsing the Help Center, if you'd still like to contact us, please click on the contact link at the bottom of the Help Center, select the topic that best describes your question, and send us a message.

If you'd like to remove your own posts, we're pleased to announce that we now offer a quick and easy way to remove your Google Groups and Google Groups Beta posts. To remove your posts, please go to [http://groups.google.com/groups/messages\\_remove](http://groups.google.com/groups/messages_remove)

Follow the directions to submit the following information. If you've already collected this information for a previous request, just cut and paste it into the fields.

1. The email address originally used to post the messages.
2. The complete Google Groups Beta URL (or message ID) for each individual message you'd like to have suppressed.
3. A statement that says "I swear under penalty of civil or criminal laws that I am the person who posted each of the foregoing messages or am authorized to request removal by the person who posted those messages."
4. Your current email address.
5. Your full contact information, including your legal name.
6. Your reason for requesting removal.

Please note that you can only remove posts from one email address at a time. This means if you made six posts from [yourname@xxxxxxxxxxxx](mailto:yourname@xxxxxxxxxxxx) and seven from [yourothername@xxxxxxxxxxxx](mailto:yourothername@xxxxxxxxxxxx) that you want to remove, you'll need to submit two requests, one for each email address.

## Answer from google group

We will review your request and process the removal on your behalf if we find the information to be accurate. If you have any problems with the new tool or if you have additional questions about removals, please let us know by submitting your question through the Help Center contact form at <http://groups.google.com/support/bin/request.py>

Regards,  
The Google Team

Unfortunately, the google group answer to my previous OPEN LETTER was incomprehensible (see other topics). Again, I am going to prosecute the user rambus2005@xxxxxxxxx (and the known US Company) in the US Court. So, I repeat my request to google group Administration to provide the IP address of the above-mentioned user, and to write some more comprehensible answer. Of course, you understand that the US judge would NOT be favourable to such sort of answers as I received from you.
