Dirk Van de moortel schreef:

The Doppler effect of an outgoing and incoming trip cancel out.

Which formula do you use for this Doppler effect?  
Can you show the calculation in detail?

Dirk Vdm

Dirk, I don't need the formula for Doppler effect to conclude that on a complete round trip, the combined effect is canceled out.

I repeat:  
Which formula do you use for this Doppler effect?  
Can you show the calculation in detail?

Dirk Vdm
