In case you didn't know, "UA's" test masses got
shipped to China.
<http://groups.google.com/group/sci.physics/msg/6a73a3d4188644d1>

That seems rather odd. I took a dig back through
older threads than that, and it seems Uncle Al was
saying he was a full participant. (?)

.... much to his chagrin. I don't know the whole story, but the
test masses configured were sent away. He identified the main
reseracher on the Chinese team, and I have seen nothing come out
of it / them.

Nothing like having the "prize" snatched away...

Of course if one thought he was insufferable now...

David A. Smith
