1. No, most people with a diploma don't post anything about it. I don't even know where my diploma is, let alone having any "link" to it.
2. Besides that, what matters is whether Eric's posts are correct or not. Diplomas are only interesting (maybe) for his employer.

i dont care of his name, he can cut
out his name from the picture, like
everybody else

we just want to see that he owns a diploma

eric gisse show your diploma to us, in
order for us to bulive that you are real
and not fake

Why is this important? This is sci.physics.relativity, not
alt.diplomas.imagescans
