Utter crap. You are the one that is doing the insulting here. I'm challenging your stupid assertions and you fail to give a reasonable response.

You have repeatedly failed to provide any evidence. That is because you have none.

Nonsense. This is an unproven allegation., you can not determine if it is correct and there is outstanding evidence to the contrary. This shows you up . It is evidence of your lack of sustance. It shows you have nothing.

So you won't give a demonstration ?

There is nothing on your website that offers this. Stop dodging and talking repetitive crap.

Put up or shut up.

The way to shut up someone like me is to provide evidence but you have not.

Your website doesn't answer the questions I pose. Beside, if you have an answer you could state that answer for me instead of repeating the mantra.

I'm not subjecting my computer to the spyware on your website again.

Give answers – ones that make sense and actually answer the question asked.

I'm not talking about killing everyone to prove if reality will cease. I'm asking to show and that minds generate reality in the first place. Describe the mechanism. Give us the science.

So far you have either failed to answer the question or answered a different one to the one I've asked.

Steve M
