Yes. Hint: you are *\*still\** the only one here who thinks that the idea  
is ridiculous. You are *\*still\** the only one here who says that the  
idea is not worth of a scientist.

No one said anything like that.

People pointed out that such a wave would be quickly damped. That does in no way mean that it can not \*exist\*. A damped wave is \*still\* a wave.

> and thetrefore– Goebeless

1680 points.

What was "animal" about the response

"Why? You don't like other people seeing how heavily you got beaten, right?"

> realise that you are a little piece of human shitt

> (probably menthaly disturbed as well)

Well, then why do you keep replying to me, with posts filled with insults? Man, you \*really\* must hate me!

> now piss of to your Nazi friends (m,ay be they are some of your advisors as well

1720 points.

Bye,  
Bjoern
