sci.physics: Re: Oops! The building just collapsed!

> *Are you claiming people were in the building?*

Oh, that's right..... I forgot you're a first grader and need everything read or explained to you.

Did you even watch the third video? At the end of the video, the firefighters were more than a little surprised when the building collapsed. As in "No warning." How is it that firefighters had no warning, especially when they were supposedly active participants in the "pull it." And, they always have radios.
