and who are you pomous fucker
to decide what is right and what i s wrong in physics ???

go to your sci.physics.research ng and flourish there!

is it not enough for you to make the marvelous advance
in those marveous snobish moderated n groups ??
dont you realiser that this ng is mor ealive and vivid
than all those stiff frozen moderated groups ??
and let me promise you
the real breakthroughs will come rather from
unmoderated ngs.
