Yer the dumbass ken seto.

My language cant be viewed on this format.

You learn some physics .

It even rubbed off onto uncle al.

" graident "

I know it had an impact.

for 5 years GRAVITY was tabo in here.

I made coments like

Gravity is a push to less energy.

Gravity is a push to less mass.

The gain in mass pushes the entire mass.

F equals gain in mass across any field.

wama intelectual punch in the eye ??

Tao the tungass giant.
