On Mon, 28 Feb 05 10:05:29 GMT, in a place far, far away,  
lparker@emory.edu (Lloyd Parker) made the phosphor on my monitor glow  
in such a way as to indicate that:

>>>*1776?*

That's not what I asked.

>*another, what does it matter the type?*

Are you saying that Iraq wants a Syrian-backed and Iranian-backed  
government? If so, why did they vote against it recently? They could  
have put the Ba'athists back in power.

In fact, I suspect that Iraq will soon be punishing Syria for its  
interference and murder.
