(Qivering lower lip) But... but... she is a VICTIM!

1) Soldiers who die for their county are expendable assets.
VICTIMS! of the 9-11 real estate deal had their families get \$million+ payoffs.

2) No scholar is eligible for scholarships. University admission is discriminatory and hate language if it s based upon the mariculant's objective qualifications.

3) Those who earn reasonable incomes by the sweat of their brows must have it redistributed to those VICTIMS! who are deserving.

Parasites are either fat or dead. The money I make belongs to me and my family, not to a government stooge who takes a cut and dumps the rest on slum bunnies for squirting out babies.
