Most of my readers know I built a barrel sail boat to go over the Niagara Falls. I'm laving for the Falls when my family doctor tells me its time. I don't think this is an act of suicide. It is my right. I love water, and have been sailing all my life. Dying in bed has been done to many times. Why wait to die(your last minute) when you can go out in a splash. Be carried away by the spray. I will be the first person to sail over Niagara Falls. I added a ten speed stern paddle wheel in case I chicken out, but I'm hoping I have the guts. If anyone would like to see the barrel boat let me know. I is cheap ,easy and fast to build. Nice father project. Easy to transport. Bert PS My doctor has very sad eyebrows
