It is interesting to see
that Harry Hyena hanson
is foaming at the mouth,
and spewing all kinds of irrational trash,
because I pointed out
that the same gang that
instigated the class wars of the 1900's
migrated to Israel and New York
after the Native Russians regained control of their government,
and the gang is desperately trying instigate
the religious wars of the 2000's,
to get back in the chips
as the loot from their class wars is almost gone.

Maybe Harry is a member of,
or fellow traveler with,
the gang that instigates conflict and war
for power and riches,
and he wants to silence any
criticism of the instigation of war-for-profit.
