I posted the 23800 acres for \$ 9,500,000  
I posted the EC21 trade leads.  
68000 buyers in china want 40,000 ton ship loads.  
The pulp pix index is \$ 646 per ton soft white pulp from FRASER  
FIR/Spruce.  
40000 x \$ 646 ....  
There is 1.3 million tons of wood on the 23000 acres with 5 lakes.  
40,000 tons is less than 1/2 of 1 % of the trees.

When I post the add on the trade lead for 40,000 tons year at 3/4  
market frozen price for 3 years ,,I will then place the information  
with the Export Bank Of The United States Of America .  
The bank of USA fed will secure the money contracts.  
The contract is 3 loads 30 million.  
You get 12 million up front and pay everything off start to end .

One way of doing it.  
But your " it's impossible "" crap don't buy anything and because you  
don't know how you don't think I could.  
Shure as fuck cant get rich with your method of everything is impossible  
crap.  
I can still have it all done in 24 hours.

ALL the above are facts and sourced .  
The market math is rock solid.  
With nothing but know how ,,a dumbfuck like you can pay it ALL off in  
24 hours.

You dont think like I do.  
3 million acres 12 big ships and 15 billion bucks.  
The math predicted it on a dime before it started then exceeded it I  
only planned the first billion but made more on new contracts.

You dont like the facts !!! to bad.  
You play by the rules or you dont play and if you dont know the rules  
you cant play.  
Poor people dont understand the rules.  
I dont make the rules , to make even 30 million you must be anyone doing  
what rules require.

Re: Foissant! (was: Gasflow along surface)

I base evry trade lead on the math befor I trade and know how much I made befor I trade.

It could just as well be a coal mountain.

It could be just as well 10,000 tons of fish sent from port to port on a charter.

If I make \$ 2 per pound ,,on 10,000 tons shure.

10 % duties customs ,,sample usda inspected.

I see no math or any facts from kiboom .

In fact kiboom is just an asshole and ignores the facts.
