common
do you refer to my post ??
your reply to me took only seconds !! wow!!
i start to be afraid.....

now about Iran:

go on 'handle them' before it is too late...
or alternatively develop the 100 percent anti missile weapon
and let them know you have it

and once they 'make a mistake' their Nuke is going to turn back
as a boomerang
we already realized that the only way to talk to terrorists is by their
own language

another alternative
change their retarded religion that produces 10 children per family!1

all the wars of this world all along history were because of
*overpopulation**!!!
