|

| But different mechanisms nonetheless. You claim

| that different mechanisms will be affected in

| different ways.

No, I claim not all clocks have been tested.

Why you change my claim is unknown.

| If you are unhappy about the fact that particles
| are involved, then add to the list the observed
| spacetime effects noted in systems consisting
| of spinning pulsars and closely orbiting massive
| bodies.

<snipped>

|| Besides, physics is not about causes or "why's".

This is the biggest bullshit happening in science today.

physics and science is about such. and those who don't think it is
are not helping science nor physics at all.

Why did the apple fall.

who cares.. that is not science nor physics..lol

lol

You are so freakin brainwashed you have forgotten to look
for the why, and now you don't even think you should have to.

lol
