I'm very sorry, but I'm confused. What's all this "911" business??? I mean, all I know is that 911 is the "Save-Me" system we have here in America which contributes to overpopulation by not letting natural selection work properly. And now I keep seeing "911" used in the sense of some sort of horrible tragedy or something – can't quite make out what it was from context. Thank you in advance for your assistance. Have a nice day. Do nothing inappropriate. "Wear sunscreen" – Carl Sagan

Have a nice day.
