WOW, as you said and say: "Earth shattering.... !!!", ahahaha...

.... self aggrandizing, senile and delusional you have become now also in your physics, just like you did in your politics, Tom. You've just have shown your true capabilities:... That you are a master in fucking up your own potential. ... Here, for example, you did it to your originally novel and promising idea that you had. This was pointed out to you by (not only me) but by quite a number of other posters, (Sam is excluded here, since there is that special, warm and loving relationship between the two of you) yet undaunted you marched ahead and proceeded with its self destruction... Can't you see, Tom, that it's your clinically bloated ego that produces your own sad and sub standard peddler efforts which will destroy any & all potential fruits of your labor, such that at best, and with mountains of luck, you will end up as a foot note that may say: "Tom Potter anticipated this potential but he did not realize....." ... ahahaha... and it was you alone, Tom, who instigated and engineered your tragic ending...

As can be seen,
"self aggrandizing, senile and delusional" hanson projects his fears and aspirations onto me.

Regarding my "clinically bloated ego",
I must point out that I am not a shooter,
I am a playmaker, and I always gave credit for
any success I enjoyed to teammates, family, friends, employees, etc.

The problem is that Usenet is populated by a few
guys who have had few ego building experiences in their lives,

Re: Article unifies the four forces

and they hide behind the conventional wisdom of the moment,
be it politics, physics, sports, entertainment, etc.
and use this as a base from which to try to stroke their egos
by beating up on some victim.

I found out many years ago,
that the best way to give these guys
a dose of their own medicine
is to assume a position of superiority.

As can be seen by the basic positions I take,
I believe that "All men are created equal,
and entitled to life, liberty and the pursuit of happiness",
and as can be seen, I have always supported the rights
of free speech and the underdog as much as possible
without making their plight my fight.

As far as me ending up as a "foot note",
who cares who gets the headline,
if my team wins?

My philosophy is that one's actions
should be directed so that there is
a maximum amount of pleasure,
and a minimum amount of pain for ALL life.

As I told my kids and tell my grandchildren,
you don't own things, they own you,
be it a house, a car, a business, a nation, an ego, etc.
so be careful in selecting what you own.

Rather than project his fears and aspirations onto me,
I suggest that hanson download and read my article:
"God is culture."

He will be much richer for it.
