Jan Panteltje wrote:

So, he was wrong about:  
Light always moves at  $c$  relative to an observer.  
Photon as such is not, it is just a mathematical concept,

You, who falsify logic and clear understanding, you are the pitfall of humanity.  
You \*get\* what you preach.

fucking gibberish.

you really are a retarded clog wearing, tulip smoking idiot.

go boil your fricking head.

.
