"Helmut Wabnig" <.... --. .- -... -.-- @ .- ---- -. DOT .- -> wrote in message news:l7vkj21hr4hf5mook7trdre4cli5062q8g@xxxxxxxxxx

Relativity is wrong because Einstein was Jewish, according to hanson, and relativity is wrong because it contradicts Sorcerer's daily experience, according to Sorcerer, and because Einstein divided by zero, also according to Sorcerer.

It is interesting to see that "Helmut Wabnig" blames all Jews for Einstein's follies.

After Newton's model, there were immediate and rapid advances in mechanics, astronomy, etc.

After Maxwell's model there were immediate and rapid advances in chemistry, electricity, etc.

After Watson's and Crick's DNA model there were immediate and rapid advances in medicine, genetics, animal husbandry, the history of the Earth and Mankind, etc.

Here we are, 100 years after General Relativity and it continues to generate more hype and heat than light and advances.

General Relativity is a Tower of Babel that wastes time, money and minds on such pursuits as time travel, worm holes, gravity waves, etc.

A mind is a terrible thing to waste, and the fact that General Relativity wastes billions of the taxpayers dollars every year, and waste the minds of thousands of innocent young dupes,

Re: Tip for GPS users

should not be blamed on Jews.

The blame should be placed where it belongs, on Einstein,
and on the GTR welfare mothers on the taxpayer dole,
who con the public into believing
that they are privy to powerful, useful knowledge.
