Ok, but this whole thing is about a group of people trying to muffle free speech and that doesn't sit well with me.

Oh, bullshit. You think you're the only one with a right of "free speech." People who disagree with you also have that right in case you didn't know.

David, you are a Borg. You are incapable of thinking for yourself. Your thoughts are the thoughts of the collective. Your reality is constructed by others. Your mantra is: "assimilate or destroy." You argue on the basis of outright-lies and revision. Your views are based on mindless conformity and self-deception. You are a fool.

If someone thinks you are spouting nonsense, they have a perfect right to say so.

Revision.

I'm not doing this for fun, and would have left them alone, but for the fact that they tried to muzzle me any anyone else who disagrees with them.

Really? Been seeing black helicopters outside your window lately? People been watching you on the underground?

Yeah
