96 I herd.

If this hypothetical lady was born in 96, she would have been 20 years old (an age when she might have been driving her first car) in 1931. She would have been born in 1911, 3 years after the introduction of the Model T ford.

You do realize it's 2007, right?

Aargh... I don't know where "born in 96" came from. Obviously I meant "if this hypothetical lady was 96 years old".
