: ROFL, this post defines this poster. Not someone you would want to
: have a meaningul discussion with, right?

I did my 100 lines as my punishment for not marking my text
as whoever the other idiot is says I should. He knows who he is,
ask him.

: What can one say?

You can't say anything sensible, you are the stupid prat that
thinks the shuttle changes heading to west over Buffalo NY
at 10,000 mph pulling 35Gs on its way to Cape Canaveral,
doesn't fly close to a great circle at all times except final
approach and pocket watches speed up in free fall.
Not exactly someone any sensible person would want to
have a meaningful discussion with, are you?
