From Osher Doctorow

I should also point out that I'm restricting my Quantum Gravity Equation(s) to one argument variable like r for simplicity at this stage of the work, and that ultimately it may well involve several argument variables.

r is radius. What others are you considering?

q for QUACKUM

g for quantum rasidity

qr for QUACKeRS

t for teyme

p for publicity

n for zipperhead poodle snots

ap for ANTI - PHYSICS

and DS for (**** *)

Re: Quantum Gravity 216.1: Intermission: Trolls/Graffiti Artists Attempt to Increase Their Credibility

kO for kOsher Duckbow
