Leibniz is not an answer, much less an
acceptable answer since he died
centuries before QM even existed.

"Until the discovery of subatomic particles and the quantum
mechanics
governing them, many of Leibniz's speculative ideas about
aspects of
nature not reducible to statics and dynamics made little
sense."
wikipedia

Hindsight sure is 20/20, huh?

Yes.

That's why it is remarkable Leibniz anticipated QM so far in advance.

Re: Absolute reality → mind → Relative Reality

So did Leucippus and Democritus almost 2500 years ago.
