He did it.

No other presidential candidate in the past 40 years has managed to speak so much truth so eloquently at such a crucial juncture in his campaign as Barack Obama did today. And he did it by speaking about race, the most persistent source of hatred among us since America began.

Bullshit,

he showed the USA he is a \*racist bigot\* stuck in the past in a "Hate Whitey Church" for 20 f\*cking years.

Democrats use "race" to gain power.
