Einstein made significant changes to Newton's Laws of motion and gravity.

You need to know how that all works to fix it.

no? really?

What I'm suggesting doesn't fix Newton's work.

You've admitted you don't understand this stuff so why are you still talking...?

It steps around it.

How can you step around something if you don't know what or where it is Mike?

Through Leibniz's work.

Fantastic make a prediction and back your paper up with citations... stop hiding behind leibniz...

Cheers
