As can be seen by examining the headers on his post,  
Eric Gisse was not satisfied in dragging Art Deco and the race/religion motivated bigots that  
operate out of the caballista.org boiler-room and turn serious newsgroups into "Rivers of  
Shit", into sci.physics.  
but now Eric Gisse is trolling to drag a similar class of sociopaths and misfits into the  
newsgroup.

As the old saying goes, "Birds of the feather.."

It seems to me that Eric should "Go away' and be with his own kind.

In other words, he should "Get the flock out of here, and go flock with his own kind."

Potter only behaves this way because he harbors a lot of hatred!  
And he doesn't even like himself.
