I am sadden to see that "Eric Gisse",

Potter is so illiterate that he can't see my web sites end  
in .org not .edu ... which could shed light on why Potter  
cannot comprehend most postings in these newsgroups.

Hey Sammy,  
I just did a search on ( GPS Wormley )  
and the first hit was:

"Sam Wormley's Global Positioning System (GPS) Resources · Geography  
Large collection of information/education resources and links, from Iowa  
State University.  
[edu-observatory.org/gps/gps.html](http://edu-observatory.org/gps/gps.html)"

How do you explain this Sammy?

What's to explain, Potter? Of course I'm associated with Iowa State

University... Those aren't my words, but those of Google. What's your problem Potter?

If I didn't know better,  
I would think that someone was trying to  
con folks into thinking  
that that web site is an edu web site,  
so they can sell "educational resources",  
and rack up change from Google Ad Sense clicks.

-- I suggest that Potter ought to look at the content more closely and  
-- try perhaps work on his comprehension a bit.

As folks with good comprehension can see,  
you seem to be trolling for people  
with poor comprehension,

people who will be impressed by the  
fact that you are or were on the payroll  
for Iowa State University,  
and your url is "edu-observatory.org"

Just what kind of observatory are you running anyway?

Considering that Archimedes Plutonium  
was on Dartmouth's payroll,  
perhaps he should emulate you  
and use the url EDU-PHYSICS.ORG  
and point out that he was  
"associated with" Dartmouth.

I will say that you do feature pretty good content,  
but in my mind you cheapen your site,  
and yourself by pretending to be something  
you are not.
