A mind is a terrible thing to waste.

Too bad, Potter, you waste your's writing political shit
in a science newsgroup... Will you never learn?

I am surprised to see that Sam Wormley
is unable to comprehend that Jews systematically
use sci.physics, the mass media, and many newsgroups
to try to condition folks into believing that Jews
are "virtuous victims", and the most intelligent
and creative people on the planet,
in order to obscure the fact that they are a criminal gang
that instigates conflict and war for power and riches,

and that all I do,
is try to provide a little balance when I observe
someone parroting Jewish propaganda,
or trying to get America into a war.

I dare say that if Sam was not so intimidated,
or intensely conditioned by the Jewish machine
that he would direct some of his censorship
to the Jews who corrupt the mass media
and the Internet with their greedy, self-serving,
aggressive, persistent, negative propaganda.

Perhaps my perception is wrong,
and Sammy will post a few references

Re: Clock-Tech made a quantum leap at Einstein's 1906 Swiss patent office.

Re: Clock-Tech made a quantum leap at Einstein's 1906 Swiss patent office.

to his posts censoring Jews like
Matti Meron, Uncle Al, Bob Kolker, etc.
when they were instigating the war on Iraq,
or trying to instigate a war with Iran,
or slandering Muslims, etc.

I will be looking forward to seeing Sam
post a few references
that demonstrate his fairness and balance.
