George Nice post I live in Florida and it all started here with Jeb Bush. Republicans stole the Florida election, and then the whole state. My telling this to the honest people in my county of Osceola had my sheriff Bob Hansel threaten my life. Had my first amendment rights taken away. Had my water turned off. Could not go anyway for help. It is corruption from the very top. Washington is corrupt, and that is the end of America. The republicans have bled our country dry. They just stole 700 billion to bail out Walstreet. Try to get part of that money back and your dead meat bert

.
