a \$ 1 million box 100,000 tons 400 x 400 you can put a tower 100 x 100 x 600 unit for under 10 million .

Install 25 units per floor low income 20 x 20 custom built bed tv shower kitchen one bedroom \$ 6000 each \$ 150,000 for the 25 unit floor. \$ 57 on top of 2 floors 60 floors.

\$ 9 ml and the \$ 6 tower.
1500 units. 60 floors.

15 mil//120
Payments month \$ 120,000 120 payments for \$ 15 million.
At \$ 350 x 1500 is \$ 525000 month

You only charge \$ 350 month for a custom with flat screens and shower and kitchen .
The homeless can afford it .
You profit \$ 350,000 a month after payments.

If its built real smart ,,jap//korea smart.

Counterweight elevators .
slow shure and cheep.

They are real nice . people would pay \$ 1000 easy a month but.
For High end \$ 31000 a month ..50 x 50 x 14 .
48 payments buys the space.

Ill make 1 mil each
