What is the boundary between reality and interpretation?

What do you think?

Do not ask a question where you have no clue about the answer.

Dear strich.9: PD does that all the time! But mainly he does that to... change the subject. Reply to PD, and be prepared to be made to go in circles. NoEinstein

Yes. He thinks he's taking us for a spin, when everybody can see he's just chasing his own tail like a confused dog.
