> *Where do you get this idea that Mondale \*didn't\* use real data? He was talking to experts, using a study from the FAS, and so on.*

...Note that every single one of his "experts" were also notoriously against manned space exploration. Mondale would have been an even bigger idiot than he was – and still is – to have accepted data from pro-NASA real experts, unless he adjusted the data to fit his sick agenda.

> *Is the possibility that his was an informed opinion just too painful for you?*

...Is the possibility that your craniorectitis is just too painful for you?
