If you ever get a chance to get to KSC or JSC and stand next to a Saturn V... or even an F-1 (the first stage engine) you start to appreciate how FRIGGING BIG the whole thing was.

It's really impressive.

Nice shot: http://en.wikipedia.org/wiki/Image:S-IC_engines_and_Von_Braun.jpg

Jochem

that one really show the size of that thing!

thanks
