in my humble opinion and pardon my grammar , NASA spending in fuelcells has been more than 20 billion dollars since 1970, i'd give anything to know who has been stopping this wonderful technology from "percolating down" to cars, trucks,ships,homes and trains, he or she ( the political appointees? ) must have made tons of money from the Oil Lobby to keep hydrogen fuelcells inside the Space Program, i call this HIGH TREASON, i would really like to find out who put the breaks on this technology which now clearly IS OUR FUTURE ! ,since day one the idea was to develop fuelcells and other great solutions to be used later on everyday problems...

in the meantime:

a) in <http://www.c-span.org/> we got a glimpse of Blackwater by a writer , <http://www.blackwaterbook.com/> , Jeremy Scahill , that has a full report on this "private war army", and with the Congress giving them contractors impunity, who is in charge ? who they work for ? if they succeed and stop the war, their contracts run out, so it's stupid to think they will help end their very lucrative business, so that explains the never ending insurgency, partisan attacks to feed the civil wars, conflicts, suicide bombings and the need for more contracts, but lets face it ! the American Taxpayer is too inocent to expect this, most of them can't even think of anyone pushing for violence to get more contracts, so the war will never end, and the contracts will just get bigger and bigger while the taxpayers get poorer and poorer, and that's why Rupert Murdoch wants to buy the WSJ, to stop any deep Investigations of contractors and Iraq war contracts, just look at Congress how they get distracted with the US Attorney affair, and this is also to get the christians out of Justice and since President Bush cannot get anyone approved by Congress, the neocons inside the Justice Dpt. would become defacto A/G.'s , neocons like Wainstein,Fisher,Rosenberg,Posner,Silverman,Chertoff,Rudman,Volcker,etc., would take over all Justice and stop all neocon investigations as well

as letting go Abramoff, Schwartz,Green,Franklin,Libby,Fastow,etc., a perfect strategy run by Sen. Schumer and Sen.Feinstein (and now with Sen.Specter help) the ones who got the most to lose, these 2 have abused their offices, the first one by searching Gov. databases of other candidates and the second one approving massive contracts that benefit the businesses of her husband, they need to take control of the Justice and close down all critics in preparation of another "fabricated 9/11" to send the USA soldiers and taxpayers to Iran, a perfect criminal plan and with Senator Lieberman, and they will succeed most likely, because can you name one single member of Congress with the will to stand up to these criminals and AIPAC ? name just one ! there is none ! ....America is a defacto pre-colony of Israel!

b) in the WSJ,June, 14,07:"AIG sues Greenberg ,Smith for over \$1 billion dollars in damages", this is the case of Greenberg as chairman

of AIG setting up a system to turn disabled workers policy's premiums into regular income to push his profits and his stock options and salaries,his general counsel at the time told Greenberg that what he was doing was illegal and quit, Greenberg kept on stealing the disabled workers primiums and when he got caught in this and other accounting manipulations and sham reinsurance transactions,he paid a fine of about 420 million and went home with a subsidiary , C.V.Starr and billions of dollars, a real sweet deal,ANYONE IN AMERICA THAT DOES

THE SAME ILLEGAL TRANSACTIONS WOULD GET 10 TO 20 YEARS AND LOSE ALL ASSETS, BUT GREENBERG IS A FRIEND OF MURDOCH,SULZBERGER AND OTHERS, so

the media never made a scandal out of it and he went home free, aint it great to be a neocon with friends in high places ? and thats also why Murdoch wants to buy the WSJ, at the time the Journal was the only

paper investigating Greenberg, so if Murdoch buys the WSJ, America takes a huge hit and i would urge the staff, which already has made it

clear they dont want Murdoch running that great paper, i would urge the staff to move on and take their great workmanship somewhere else, a place with mobile devices and global reach, make their great Investigating Reporting a mobile global asset , its the right thing to

do if the stockholders of Dow Jones bend over in front of Rupert "General Mossad" Murdoch and his soldiers, shame !

c) this week, so far, we got Senator Levin, slowing down the CAFE standards, he is really working for the Oil Lobby with the excuse that

the Auto Industry cannot get hurt, but really is to keep America

addicted to oil , which keeps our troops in the Middle East guarding the occupied territories and the israelis safe as well as justifying another round of massive Foreign Aid, this year Israel and Pakistan are getting 10 billion each, military–economic–loan guarantees–support–gifts, a wonderful thing if you can get it, but hey ! the USA Taxpayers cannot even find all the information in any newspapers, that's the power of AIPAC and the Oil Lobby in America, amazing ! and it shows the total corruption of WashingtonDC,only by pushing out 80 % of the Congress and 80 % of the staff ( every House and Senate member office has one or more AIPAC–Oil staff operator ) we will be able to take this great country back, it's on the brink !

d) in many newspapers ,NYT,WP,WSJ, the talk is about Hedge Funds like Blackstone and others, making billions of dollars with the war and selling chunks of stock to China and the Middle East investors,loaded with Oil and war profits, and still paying only 15 % in taxes, instead of the ordinary income tax rate of 35%, and the Congress and assorted Committees still talking about patriotism and the war on terror, the biggest war profiteers running the show, collecting billions of dollars and the soldiers still waiting to get a few Mine Resistant Ambush Protection Vehicles, MRAP's, they are fighting for the multi-billion contract ! no time for the soldiers!

e) in the WP we find out that BP, fighting criminal charges of incompetence for the Refineries fires here in the USA, has hired none other than Jamie Gorelick, the diabolical dep.AG that created the memo called "the WALL" by the WSJ, a memo that forced all Justice Dpt. units not to talk with each other and that created the environment for 9/11/01, where FBI could not ask Immigration about terrorists, CIA could not tell FBI, pilot schools could not tell Justice, etc.,she is a real good neocon israeli operator,a real soldier, and a real criminal, lets hope God gives her and all her team what she and they work so hard for !

in the meantime i urge president Bush and Speaker Pelosi to break the "criminal air" and start a massive plan with solar panels and concentrators factories to put solar energy in 35 million homes,under water turbines in all coasts and islands , wind turbines in the 50 States, ethanol from sugar–cane/corn/rapeseeds/etc., in every gas station, a massive plan for safe lithium–ion and nickel–metal batteries factories, hydrogen in 25.000 gas stations, electric cars for every

Municipality,coal to diesel plants with carbon capture ( if we search, we will find a way to capture carbons !!!! ) , genetic and chemical labeling for all the foods,educate the kids in 3 languages while making english the natural language of America.

to President Bush : as usual, the last 18 months of every Presidency are loose, weak, distracted, the corruption wants to make a last push, remember the last 18 months of President Clinton's office, a great man,but who let Lewis Libby and his neocon partners sell all the satellite tech. to China, move all the Intel 64-bit factories to Israel,move there also all the Laser tech. from the Pentagon with the help of ex-Sec. Cohen,Rubin ,Fischer and Summer ,etc., all the USA Taxpayers assets, and Libby went overboard with the pardons of Marc Rich and Pincus Green, the real "oil for food and cash" operators as well as stolen alcohol -tobacco-money laundering-arms-drugs-influence and the Bank of New York- Kagolovsky-Pritzker-racket, and on and on.... so it's important to make sure that Gillespie and his friends Bolten-Kaplan-Kellner-Wurmser-Edelman-Whitman as well as Jacobs of Qualcomm,the Roberts of Comcast,Semel of Yahoo, Murdoch of Fox , etc., do not go crazy with absurd tricks to feed the neocon machine, hurt America and blame you and your legacy for it all, like they did with president Clinton: **DON'T LET THEM DESTROY THE WHITE HOUSE , THE OFFICE OF THE PRESIDENT AND YOUR LEGACY**, watch your back and the country's! thank you very much !

Undocumented Immigrants :

start to integrate all the undocumented immigrants into the USA System, in basics like not dropping papers or cigarettes or spitting on the floor,letting old people their seats on a bus or train, letting ladies first, helping others, respecting the rules of the USA culture, learning fully the Constitution, making them understand that the USA is unique, they can't duplicate their own country here , that's why they come here instead of staying back, in my humble opinion, undocumented immigrants must become first an asset for America, an added value, a positive force,and that requires training and education,all immigrants will become old, there needs to be a plan to integrate them from young to old, with massive Internet , mobile apps, etc., to make them valuable for themselves and for society, a real long term plan with their own health insurance, etc. , **MAKING SURE THAT RIGHT AFTER A BILL TO HELP THEM IS SIGNED THEY DONT GET LAWYERS TO SUE THE GOVERNMENT FOR SERVICES AND MONEY!.....**and the Farm Workers for our vegies and fruits must be a separate plan, we cannot have these key food

components being grown outside of the USA: temporary farm workers are key ! most of our vegies and fruits must be local, fresh, natural,organic if possible and from inside our borders, that's a must for you to secure before you leave office , dear President !

h) in the Washington Post,June ,15,07 are 2 important articles about Intelsat and the fraud involved : " Intelsat's triple-flip is anchored in debt " and "Intelsat Puts Itself Back on the Auction Block" where we learn the massive flipping of these very important USA assets and all through Hedge Funds in Bermuda to avoid taxes and parking patents and access to National Security there, these satellites should go to EchoStar-Direct TV or any other local honest enterprise, and it all started with the Board of GM selling Hughes to Rupert Murdoch when this individual was still a foreign national from Australia, and this sale of TV airwaves and satellite networks of the USA taxpayers to a foreign national was and is illegal, but hey! Washington DC really likes to bend over for "General Mossad" Murdoch, they really go for it , the traitors ! so nothing will ever happen , anyone else in the USA would have lost all his or her assets and the TV licenses, but Murdoch keeps on monopolizing and now is going after the WSJ to take full control of the media and fix the '08 elections, real neocon style ! and the christian community looking at their -----, shame !..... to all of you christian men : don't cry later when your kids and wife have to bend over and kiss Murdoch-Lieberman-Schumer-Bloomberg-Emanuel and the Israeli Army -----, don't cry later when you never did anything when you could to save your country and the USA Constitution ! and about the above neocons: in 2002 and 2003 these warmongers were pushing America ,Congress and the White House to attack Iraq and to bomb everybody , they were using everyday the TV networks, newspapers and radios to push for invading Iraq with the WMD lies fabricated by their partners Feith,Wolfowitz,Perle,Abrams,Wurmser,Zakheim,Kristol,Cohen,etc.etc., and where is the responsibility ? thousands of deaths and injuries,families broken and lands devastated and the blame going to the USA, while these neocons and their partners are sipping coffe in Tel Aviv and Haiffa complaining about the "Victim Business" not moving forward fast enough and the oil pipeline from Iraq to Haiffa not being in place already , the real reason the USA went to Iraq ! what a criminal genocide ! all this is a high crime against the United States of America .

in the end, the corruption ,fear of energy independence and fear of

AIPAC, incompetence

and lack of vision is so great in DC ,every USA taxpayer must take  
part and go to DC, on foot or on the Internet,time to shake things  
up ! the Republic is in real danger !

.
