Just announced today, finally available for sale, a 1/288 scale "Collier's" Ferry Rocket as designed by von Braun and painted by Bonestell and Rolf Klep. This has each stage as a complete item, and comes equipped with a display stand that replicates the launch pad.

WOW – Look at all those engines!!! . . Can sort of imagine the call: "Ferry 6, Houston, you are 6–engines out press to MECO"

Take care . . .

John
