Ool: Yesterday's allied Saddam we sold all those chemical and biological weapons.

Lowther: Sorry, that was the French and Germans.

Then Quibbler and Tavaila cite numerous occasions of U.S. selling Iraq chemical and biological weapons.

And now it seems you're trying to bolster your false assertion with a word game. Whether or not "the media" calls a 20 year old dud missile WMD doesn't change the fact that U.S. sold Iraq chemical and biological weapons.
